Tendenci Core Features

the cms for your nonprofit

Pages (Content Manager)	The Content Manager allows for immediate website content updates through the user-friendly, WYSIWYG editor. The Content Manager also includes: • Custom titles and URLs • Image and graphics uploads • File gallery accessibility • Template change • Tags • SEO META tools and edits • Permission setting • Preview
Navigation Editor	The Navigation Editor provides you with the necessary tools to easily edit and rearrange the site navigation and sub-menus through an intuitive drag and drop interface.
Stories	The Stories module will provide you with the homepage flexibility to market your events and promotions in real-time. The Stories module also includes: • Image Rotator (based on final custom design) • High resolution image upload and auto-image resizing • Timed stories • Tags • Link to full story content (internal and external)
Boxes	Boxes are an option with all Tendenci websites, providing additional homepage areas that can be easily edited by you. The boxes will give you the flexibility to change text within graphics, upload images, promote an event, change dynamic feeds and much more…

Tendenci Core Features

the cms for your nonprofit

Events Calendar	The Events Calendar module is available for your organization to easily post events and accept online registrations. The Events Calendar module also includes: ▪ Calendar view and searchable list view ▪ Event types with filtered color-coded views ▪ Individual event pages to add images, graphics, text, etc. ▪ Google Map API for event locations ▪ Online registration ▪ Tiered pricing ▪ Custom registration forms ▪ Event form add-ons (i.e. T-shirt size) ▪ Attendees roster and .csv export ▪ Invoice creation and management ▪ Event auto-confirmation and reminders ▪ Discount codes ▪ Email to registrants
Membership Management	The Membership Management Module will allow your organization to easily manage your membership database through online applications, renewals and automated notices. Tendenci Membership Management also includes: ▪ Editable membership applications and fields ▪ Membership types ▪ Tiered membership pricing ▪ Rolling or fixed membership durations ▪ Online membership sign-up and approvals ▪ Automated membership notices ▪ Member-only permission settings ▪ Member profile and member access to update profile ▪ Corporate membership management ▪ Membership reporting for active members, up-for-renewal members, members over time, top spenders, expired and so much more…
News Articles	The News Article module allows you to post news resources cited from both internal and external resources. The News Article module also includes: • Custom Titles and URLs • Tags • Source citation • Timed releases based on selected date • Permissions • Keyword search • Author contact information • Permissions

the cms for your nonprofit

Business Directories

The Business Directories module provides an easy-to-use interface for posting and highlighting businesses, partners and sponsors relevant to your organization's initiatives. The Business Directories modules also includes:

- Searchable list view
- Logo upload
- Business description, website link and contact information
- Online payment for business directory listing (Premium, Non-Premium)
- Tags
- Categories
- Permissions

Help Files

The Help Files module will allow you to provide additional support and educational resources to your site visitors. The Help Files module also includes:

- Topic categorization
- Searchable by keyword
- Flexible content type uploads – video, text, images, slides, etc.
- Most FAQs displayed
- Featured Help File select
- Permissions files

Contact Forms

The Contact Forms module allows you to easily build forms to collect site visitor's contact information and details to be submitted to an appropriate email address within your organization.

Invoices and Financial Reports

All online payments taken through your website are stored in the Invoices module for accurate bookkeeping. The Invoices module also includes:

- Search by keyword, type and date
- .csv export
- Individual invoice details, descriptions, line amounts, and balance

	▪ Automatic invoice attachment to User and Member profiles ▪ Individual invoice adjustment ▪ Invoice notes ▪ Select to tender invoice as an offline payment ▪ Manual "mark as paid" ▪ Print Invoice ▪ Financial report builder and exports
Permissions	Within every Tendenci module, you will be able to set content as private or viewable via tiered group permission levels. Additionally, granular permissions allow you to assign specific rights to individuals or groups for both access and contribution of content.
File Gallery	The File Gallery module allows you to easily upload and reuse files through a searchable database.
Social Media	Tendenci websites include multiple avenues for integrating your organization's social networks. Social media integration options include: ▪ Dynamic feeds (APIs) ▪ Outbound graphic links ▪ "Add This" code to enable sharing capabilities for all content ▪ Facebook "Like" button for New Articles feeds.
Ask about our Add-ons!	▪ Global Site Search ▪ Staff Directory ▪ Committees ▪ Study Groups ▪ Donations ▪ Resource Library ▪ Courses (CE) ▪ Responsive Design
